

**Dr. Ashish Verma**  
**President**  
**Transport Research Group of India, India**

Dr. Ashish Verma is currently serving as Asst. Prof. of Transportation Engg. at Dept. of Civil Engg. and Centre for infrastructure, Sustainable Transportation, and Urban Planning (CiSTUP) at Indian Institute of Science (IISc), Bangalore, India. Before joining IISc, he has served in IIT Guwahati, and Mumbai Metropolitan Region Development Authority (MMRDA).

His research interest are in sustainable transportation planning, public transport planning and management, optimization of transportation systems, application of geoinformatics in transportation, driver behaviour and road safety, traffic management etc.

He is also a certified road safety auditor (through IRF-ARRB certification course). He has authored about 50 research publications, 1 book, and 1 NPTEL web-course. He is a member of the editorial board of JUPD, ASCE and guest editor of special issue “Challenges in Transportation Planning for Asian Cities”, of the same journal, published in March 2010. He also Guest edited a special issue titled “Sustainable Transportation System for Cities of Developing Countries: Challenges and Issues” for the journal “Current Science” of Indian Academy of Sciences (published in May 2011) and currently working on another special issue titled “Economics of Sustainable Transportation in India” for the journal “Research in Transportation Economics” of Elsevier Science. He is the founding President of the recently founded **Transportation Research Group of India** ([www.trgindia.org](http://www.trgindia.org)), which is a registered society and has the mission to aid India’s overall growth through focused

transportation research, education, and policies in the country. More details about him can be seen on his home-page <http://civil.iisc.ernet.in/~ashishv/> .

He is a Ph.D. from IIT Bombay.
